Standards and Service Policies**

Standards

Vehicle Load Standards:

The average of all loads during the peak operating period should not exceed vehicle's achievable capacities, which are 55 passengers for a 50-foot commuter coach bus.

Vehicle Headway Standards:

This system operates weekly from early morning to late evenings Monday through Saturday. Due to the extended distance between destinations, each route runs once a day, serving many stops multiple times. Each stop is serviced at least twice a day. Stops with higher ridership populations are serviced more frequently, generally once every hour.

Many factors are taken into consideration when scheduling potential bus stop locations. These include: density of transit-dependent population and activities, large employment centers, land use connectivity, transit/pedestrian friendly streets, and relationship with major transportation developments.

On-Time Performance Standards

A vehicle is considered on time if it departs a scheduled stop at the time advertised in the printed schedule. Riders are strongly encouraged to arrive at a stop ten to fifteen minutes before the advertised time. Vehicles on-time performance is sporadically monitored by GPS and more thoroughly if a customer complaint arises.

Service Availability Standards

Birnie Bus Tours, Inc. distributes transit service so that all major population points are serviced and stops are located within ¼ of a mile of local bus service or central commercial areas.

Service Policies

Transit Amenities Policy
